Plenary session – Brittany call for tenders: launching commercial development of FOW

Join us for an exclusive insight into the tendering for the world's first commercial Floating Offshore Wind farm in Brittany.

Co-chaired by Frédéric Poignant, Director of the Pôle Mer Méditerranée sea innovation cluster, and Jean-Michel Lopez, Delegate General Director for marine energies at the Brittany Region, this session will see the tendering consortiums pitch their solutions and answer questions about their vision of the future of Floating Offshore Wind.

Come learn everything there is to know about this key event for Floating Offshore Wind!
